

This is an aerial map showing a street intersection. A diagonal road runs from the bottom-left towards the top-right. A horizontal road, labeled "Broadway" on the right side, intersects this diagonal road. Two parallel streets, labeled "1602" and "1603", run horizontally across the middle of the image. A large, dark, irregular shape, likely representing a building footprint, is located in the upper-left quadrant, partially overlapping the "1603" street. The map also shows a street grid with various colored lines (yellow, red, blue) and a small "T" symbol in the top-left corner.
